DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 8.

ADA, OKLAHOMA, TUESDAY EVENING, JUNE 27, 1911

NUMBER 71

MCALISTER BOOSTERS

WILL ARRIVE THURSDAY AFTER-
NOON—OFFER TO GIVE FREE
CONCERT.

The News is in receipt of the following self-explanatory letter from the McAlester Commercial club, which will arrive on a special train Thursday afternoon. The suggestion of a free concert should be taken up at once.

"We have decided to change the schedule of our special the 29th to reach your city at 6:40 p. m.

"As previously advised, we carry a 16 piece band. With this we would like to give a free concert in the evening if your people can provide a suitable hall or place where it can be held. We would suggest that if it is pretty weather some seats be placed in the open air—possibly in front of the principal hotel. We also carry some good vocalists and will be able to furnish an entertainment really worth while."

COUNCIL HOLDS LIVELY SESSION

Levy & Levy Threaten to Sue for
Blame Claimed on Paving Con-
tract—Waterworks Questions
Discussed at Length.

The meeting of the council last evening was a very spirited one although very little of a definite nature was accomplished.

The first thing brought up was the long standing dispute between the city and Levy & Levy, the sub-contractors who did most of the paving work for the Shelby Downard Co. These sub-contractors are claiming about \$500 for dirt moved to West Main street to make a fill. Mr. Levy appeared before the council and made a strong fight, threatening a suit if the claim were not paid. The former council had tendered the contractors \$100 in final settlement of the claim, but they had refused to accept it. After hearing the case last evening, Alderman Timberlake moved to renew the offer of \$100 and the motion was unanimously carried. Mr. Levy again threatened to sue the city and the court may yet be called on to settle the trouble. The council is of the opinion that the city really owes nothing, and will not likely make any better offer than the one made last evening. As the contract was let to Shelby Downard Co. and the Levys were not known in the contract with the city, it is just a little uncertain just where they come in.

Next came the vexed waterworks question. A letter from Goodwin & Harper to D. T. Johnson, the contractor, was read in which attention was called to a number of points in connection with the work which were alleged not to be in keeping with the contract with the city. Mr. Goodwin who had been over the line since the letter was written, however, was of the opinion that most of the things

complained of had been corrected. He was subjected to a running fire of questions by Aldermen Ellison, Wymore, Ratliff and Ebeby in regard to the work. In course of the questioning and answers it was developed that twenty-two angles of 22 degrees each will increase the friction to an extent that will make the whole pressure equal to a lift of something more than 80 feet as against 70 feet in a perfectly straight line. Mr. Goodwin was of the opinion that this would make little difference in the efficiency of the line, for as he pointed out, the system will not likely be worked to its full capacity for at least two or three years after being installed. He did not see very much advantage in crossing the creeks on piers instead of going under them with the pipe, but was willing to make that change in the plans where there would be any advantage in it.

The principal objection to be found now, so Mr. Goodwin thought, is the slowness with which the work is being pushed. He doubted if the work would be completed this year at the rate of speed now being made.

Mr. Johnson, however, declared that he could complete it within sixty days. He is working a crew of about 75 men and has the worst part of the line completed. He said he had been badly hindered by the failure of the wood pipe to arrive, and that he had encountered much more rock than he had thought to find. With the rocky part of the line out of the way, he is of the opinion that work will be pushed in a satisfactory manner. He wanted to know what the council intended to do about allowing an estimate on the work. This brought up another phase of it, some of the councilmen contending that nothing could be allowed until he had tested the pipe already laid and which he cannot do very well without considerable expense and delay until the remaining portion of the wood pipe is in place. He said that he had 7,000 feet of 12-inch pipe laid, over a mile of which has been caulked.

In view of the fact that the law provides that the council of a town cannot dispose of more than \$500 worth of the city's property without submitting it to a vote of the people, it was decided to call a special election in the near future to pass upon the sale of the four lots next to the city hall as contracted for sometime ago. The city originally paid \$3,500 for six lots. The city hall was built on two of these and the council contracted to sell the remaining four for \$4,000 which is a very nice profit on the investment.

The council adjourned about midnight to meet again tomorrow.

JUDGE MCKEOWN REFUSES MANDAMUS

Judge McKeown refused to issue a writ of mandamus against Gus Pool county clerk of Seminole county in connection with the separate school fund warrants. It appeared that the clerk had already signed warrants to the extent of ninety per cent of the levy, as permitted by law, and refused to sign any more until there were funds to meet them. In this he was sustained by Judge McKeown in the decision handed down today.

AN ALLEGED SHORTAGE

FORMER CLERK IN AUDITORS' OFFICE SAID TO HAVE BEEN INVOLVED.

Oklahoma City, June 27.—That the alleged shortage in the accounts of W. E. McBrine, former chief clerk in the office of the state auditor, has already reached, to his personal knowledge, the sum of \$19,000; that he believes a full investigation will show a defalcation of between \$25,000 and \$40,000 and that possibly McBrine is not the only person involved, constitute a brief summary of startling disclosures made by M. E. Trapp, of Guthrie, former state auditor of Oklahoma, to the Oklahoman, over the long distance telephone Monday night.

Coupled with the former state auditor's statement is the information emanating from the state house, Monday to the effect that the bond of the state auditor, under the present law, is fixed at only \$5,000. That sum therefore, would be the limit of the liability of any state auditor of Oklahoma, in case irregularities were found to have occurred during his term of office. If the shortages should aggregate that sum, as appears to be the case in the present instance, the state would be the loser to the extent of the excess over \$5,000.

Governor Notified.

Official notification of a shortage of \$3,000 in the funds of the A. & M. college at Stillwater, was made to

Rugs and Carpets Cleaned By Electricity

Phone Us For Prices

SMITH

203-5 W. Main St.

Governor Lee Cruce, Monday, by State Auditor Leo Meyer. The discrepancy was unearthed easily by reason of the fact that the payrolls are turned over to the auditor in a blanket claim, covering all expenditures for a given period, with itemized statements attached to the claims. Warrants are then issued for the whole amount of the claims, in denominations of \$1,000 each, with additional warrants for the odd amounts necessary to fill out the claim in each case.

In this case three additional warrants were issued for \$1,000 each, the totals of the claims being raised \$1,000 in each case, and the receipt for the warrant altered so as to cover the three extra warrants as well as the ones actually turned over. All were made payable to J. H. Connell, president of the college but they are practically payable to bearer, as they can be transferred without endorsement and there would be no difficulty in disposing of them. These warrants were apparently signed and executed in proper form, and the present holders will have a valid claim against the state. Nothing is known as to who is holding the warrants at the present time.

No definite information has been obtained as to any further irregularities, although it is understood that four or five of the warrants which were signed in blank and sent from Guthrie to Oklahoma City just at the close of the extraordinary session of the legislature to take care of the legislative pay rolls were not fully accounted for. There have also been loose warrants in possession of employees of the auditor's office at various times which might have been filled out and issued in lieu of the real thing.

Declines to Give Details.

As to the intimation that there is a possibility other people may become involved in the shortage charges, Mr. Trapp declined to go into details, other than to say that investigation is disclosing irregularities that bear the imprint of more than one hand.

It is said that the checks in payment of the warrants as a rule were cashed by an Oklahoma City bank. It is also said that the two \$5,000 drafts and the \$2,000 cashier's check McBrine deposited in the Kansas City bank were issued by an Oklahoma

City bank. This statement has not been verified.

McBrine, until the present time, has borne an excellent reputation in Guthrie. He was married two years ago. His bride came from Dewey county. They have a son, and mother and child are living with the latter's mother in Guthrie. The statement is made that when McBrine departed from Guthrie suddenly he took his young son in his arms and remarked:

"Well, youngster, you will be quite a man before you see me again."

Stories of McBrine's having sustained heavy losses within the last year are afloat in Guthrie although they, too, lack verification.

Socialist Cotton "Patch."

Anadarko, Ok., June 27.—The socialist locals of this county have a cotton "patch" near Stockton Canyon which they planted and are tending for the purpose of raising funds to promulgate socialism in this state. It has been so well tended in fact, that the yield is now estimated greater than any other tract of land of the same size in the entire county. The Socialists of the entire state are farming "patches" of cotton and corn for campaign funds.

HARRINGTON STOCK CO. GREETED WITH FULL HOUSE

Standing room only was the cry last evening at the Pavilion theatre when the Harrington Stock Co. produced O Mother's Devotion, a four act melodrama founded on Will Carleton's poem Over the Hills to the Poor House, which was finely rendered by the company. Ernest Harrington as Nimrod was a host of entertainers with his allusions to the Lyne Kill Club, and he was on hand at every opportunity. Beatrice Harrington as the mother was superb in her emotional scenes particularly where she is driven by her son to the poor house.

The supporting company was all that could be desired. Tonight the old, but ever popular drama East Lynn will be presented.

The band and orchestra always good with this organization is now stronger than ever and their music is very pleasing.

The LaPearl sisters were again seen to advantage in their monologues and songs together with their dancing.

OKLAHOMA BAND WINS SECOND PRIZE

Letter from Charley Chauncey to his parents states that the Oklahoma band with which he is playing won second honors at the head camp convention of the Modern Woodmen at Buffalo, N. Y. This prize, we understand, is \$200 in cash and a silver medal for each member of the band. Besides this one man was so enthusiastic that he added another \$200 to the prize.

Jno. Sweeney went to Sasakwa yesterday afternoon to attend a revival meeting in progress there.

ICE CREAM AND FRUIT

Did you ever realize what a difference crushed fruit mad in the flavor of ice cream? We handle the best cream in the city and know how to put on trimmings that are sure to please. If you are not already one of our fountain customers come in today and you will always be one. Quality is our motto.

RECIPROCITY APPEARS SAFE

BILL WILL PROBABLY BE ADOPTED WITHOUT AMENDMENT.

Washington, June 26.—So few were the supporters of the Root Amendment to the reciprocity bill that when the time came in the senate this evening for taking a vote on the motion to strike out the amendment they begged the democrats not to ask for a roll call. So the Canadian pact was shorn of the proviso placed in it by the Finance committee at the request of the New York Senator by a viva voce vote, and the pact is once more in the exact form in which it came to the senate from the house.

This result is highly gratifying to all friends of the agreement with Canada, and especially to President Taft, who has so steadily and firmly insisted that the agreement should go through, both houses of congress without change.

Last Doubt Removed.

The manner in which the Root proposition was disposed of in the senate this evening apparently removes the last remaining doubt that the wishes of the president will be respected by the senate, for it is generally conceded that no other amendment likely to be offered to the bill will have as many friends as that offered by the New York senator, which was the only one that could command strength enough in the Finance Committee to secure adoption by the committee before the pact was reported to the senate. Had the Root amendment remained in the Canadian agreement it would have indefinitely postponed the time when the operation of the agreement could have been of benefit to the consumers of wood pulp and print paper in the United States.

No Time Set for Vote.

But while today's action of the senate seems to make certain the passage of the reciprocity bill unchanged when a vote is reached on the measure, no one is prepared to say just when that time will come.

Conferences held between democrats, insurgents and regular republicans in the senate this afternoon developed the discouraging fact that objection will be made to fixing any date prior to July 24 for a vote on amendments or on the bill itself. This is due to the circumstance that the insurgent and regular opponents of reciprocity are bent on exhaustive discussion of the bill and of the amendments they will propose. Several senators of both groups also intend to take long leaves of absence and want no votes while they are away. Then there will be an adjourn-

ment of the senate from Saturday of this week until Wednesday of next, according to an arrangement patched up today. Thus the outlook is for prolonged delay in finally disposing of the measure.

As to Tariff Situation.

The situation as to tariff legislation by the senate continues foggy. No plan of action has been decided on by the democrats to deal with the farmers' free list and the wool bill. They have been informally talking of holding a conference or caucus, and this would no doubt be done in the next few days.

Senator Penrose proposed to vote on reciprocity on July 24, the free list bill July 25 and the wool bill July 26, but this proposal also met with objection on the part of the insurgents.

THE TENT MEETING

In the discourse last night it was shown from the Bible that the law Commandment law. The Ceremonial law and not the Moral or Ten Commandment law. The Cerimonial law had many "ordinances of divine service," meat offerings, drink offerings, carnal ordinances, annual sabbaths, etc., all of which ceased at the cross when type met antitype; but the Ten Commandments remain unchanged and to keep them is the duty of all men.

The subject tonight will be: "The Sunday Sabbath, What Does the Bible Say about It?"

We are expecting many to hear this subject and invite all protestants especially tonight and tomorrow night.

DEFEAT OF SENATOR PAYNTER.

The forced withdrawal of Senator Paynter of Kentucky from the race for re-election is another striking illustration of the power of public opinion when once aroused. So far as known, Paynter was not only an able man, but a fairly straight one, but being something of a standpatter, he fell into bad company. When the Lorimer case was investigated by the committee of which he was a member, Paynter made the mistake of several others. He thought that Lorimer could be whitewashed and the whole thing could be settled. In the fight that followed, however, the supporters of Lorimer were put in a very bad light before the people and it was impossible to find explanations for their conduct that would really explain. Paynter for one utterly failed to explain his conduct to the satisfaction of the people of Kentucky, and his head fell. Others will likely follow as soon as their constituents get a chance at them. Paynter's defeat will probably have considerable weight in the final determination of the Lorimer case. Other senators will likely see a great light, and much as they may love Lorimer, they love their own jobs a thousand times more. The Illinois man will likely be kicked out without much ceremony and another score will be chalked up in favor of decent government.

CIGARETTE CAUSES A BAD FIRE AT SHERMAN

Sherman, Tex., June 27.—Fire which started here at 4:30 o'clock Monday afternoon destroyed about twenty-five residences and several store buildings and for a while threatened all of north Sherman, particularly the Frisco addition. The flames are reported under control at 8 o'clock tonight. It is impossible to ascertain the losses or insurance. High winds prevailed during the fire, carrying flames from house to house. A small boy smoking a cigarette is said to have started the blaze. One man, whose name could not be learned, was severely burned about the hands and arms. Chief Cooper and three men and one thousand feet of hose of the Denison department were sent here in fighting the flames.

STILL AFTER THE SCALP OF PETE HANRATY

McAlester, Ok., June 27.—A petition was filed with the City Clerk this afternoon signed by over 400 voters asking for an election for the recall of Pete Hanraty, elected last October as the first Mayor of McAlester under the commission form of government. A like petition was filed in April, but the other commissioners refused to call the election. Judge Cole of the District Court refused a writ of mandamus to compel them to call the election and this case has gone to the supreme court. The citizens got up a second petition and the commissioners have announced they would call the election. Mayor Hanraty was a member of the constitutional convention and was on the committee fighting for the recall clause. He was former president of the Coal Miners' Union for this dis-

trict and elected chief mine inspector at the Statehood election.

APPELLATE COURTS MOVING TO OKLAHOMA CITY

Oklahoma City, Ok., June 26.—Property of the supreme and criminal court of appeals will probably be in Oklahoma City this week from Guthrie, but the state law library will not be brought before the middle of July. This week's removal includes the clerk of the supreme court, who up to this time has only maintained a branch office in Oklahoma City. The Attorney General will not come with his entire office until the law library is brought. Some of the officials will continue to reside in Guthrie.

The supreme court will hold a session here next Tuesday for delivery of opinions and announcements of orders. The supreme court will not organize the supreme court commissioners until fall.

Our Tongues.

"The boneless tongue, so small and weak, Can crush and kill," declares the Greek.

"The tongue destroys a greater horde," The Turk asserts, "than does the sword."

The Persian proverb wisely saith: "A lengthy tongue—an early death."

Or sometimes takes this form instead: "Don't let your tongue cut off your head."

"The tongue can speak a word whose speed," Says the Chinese, "outstrips the steed."

While Arab sages this impart: "The tongue's great storehouse is the heart."

From Hebrew wit the maxim sprung "Though feet should slip, ne'er let the tongue."

The sacred writer crowns the whole: "Who keeps his tongue doth keep his soul."

—P. Burroughs Strong.

COMMISSION GOVERNMENT A SUCCESS AT SPOKANE

Spokane, Wash., June 27.—Three months' trial of the commission form of government in Spokane has convinced many, including the severest critics of the plan, that the affairs of the municipality today are conducted with greater efficiency, economy and dispatch than under any administration, since the incorporation of the city in 1881. Many wastes have been stopped, numerous abuses have been corrected and modern methods are now employed in all the departments. The business of the city is conducted in the same manner that a successful merchant or manufacturer operates his store or factory plant. Robert Fairley, commissioner of finance, said today that, while there is nothing certain yet relative to a reduction in taxes, he is prepared to show that the tax-payers have received 100 cents worth of work for every dollar expended by the commission. Commissioner Fairley has received requests from more than 100 cities in various parts of the country for copies of the Spokane charter, which is declared to be the most advanced practical plan in America.

Mrs. I. M. King is entertaining this afternoon in honor of Mrs. E. K. Higgins of McKenzie, Tenn.

The Katy tax commissioner was here today looking over all things connected with taxation in the county, noting especial the price of real estate as recorded in deeds and the valuation taken by the tax assessor. The road is evidently preparing for another suit.

NOTICE.

All persons having claims against the city will please present them before next Monday night. This is the close of the fiscal year and it is essential that all indebtedness be settled. W. B. JONES, City Clerk.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. ONE DOLLAR BOTTLES GUARANTEED RAMSEY DRUG CO.

SAGE AND SULPHUR CURES DANDRUFF

Restores Faded and Gray Hair to Natural Color—Itching Scalp Quickly Stopped.

This applies to Wyeth's Sage and Sulphur Hair Remedy, for it does not do exactly what is claimed for it, the sales would naturally drop off. However, Wyeth's Sage and Sulphur Hair Remedy does "make good," as evidenced by its daily increasing sales. Druggists say that this preparation gives the best satisfaction of any hair remedy ever sold. Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It removes dandruff, strengthens the hair, gives new life to dull or parched hair, and gradually restores gray hair to natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. GWIN & MAYS DRUG CO.

Normal Reaches 300.

The new students enrolled in the normal this morning pushed the total up to the 300 mark. Quite a number are expected next week.

Teachers Remember Supt. Pierce.

When his house was burned some months ago Supt. T. F. Pierce lost a fine library which he had spent a lifetime in collecting. Since then teachers in all parts of the state have been sending him books with their compliments, until he now has 150 choice volumes of professional works. This is a merited tribute to his work in the schools of Oklahoma.

The Perpetual Change.

The things of the world are ever rising and falling, and in perpetual change; and this change must be according to the will of God, as he has bestowed upon man neither the wisdom nor the power to enable him to check it. The great lesson in these things is that man must strengthen himself doubly at such times to fulfill his duty, and to do what is right, and must seek his happiness and inward peace from objects which cannot be taken away from him.—Wilhelm von Humboldt.

Lusty Cheese His Undoing.

Had it not been for a fine, large, ripe gorgonzola cheese, Antonio Skalla, a Naples stowaway, would have reached New York in safety on his third attempt. He stowed himself too near the cheese on the steamer Saxonia, and long before the liner arrived Antonio decided that death in any form was preferable to suffocation by gorgonzola. So he gave himself up.

Escaped Death Thirteen Times.

John H. Rice of North Hempstead, L. I., on his thirteenth escape from death, the last time in an auto accident, remarked that he was a lucky man. Here are some of the things that have happened to him: Left leg cut off by train, shot out eye cleaning a revolver, lost an arm by fall from a tree, was saved three times from drowning.

How to Be Good.

Tommy is an impulsive little fellow, who doesn't always find it easy to live up to the expectations of his elders. When, one day, his Sunday school teacher asked him to tell the other members of the class the way to be good, Tommy gave this explanation: "Just think of the things you want to do and don't never do 'em!"

To Resuscitate People.

Operated by a small motor driven by a dry battery is a machine invented in Germany to resuscitate persons overcome by gases which automatically pumps out the lungs and fills them with oxygen.

Nonsensical Idea.

A London physician has made the suggestion that condemned criminals should drink river water in its "raw" state, that the effects might be observed. Presumably it would only mean cases of typhoid to be cured at the expense of the state.

True Optimist.

The real optimist is the man who, seeing his train steaming out of the station, just as he arrives, remarks gently: "Well, anyway, I almost caught it."

Consolation in Defeat.

The defeated candidate is like the old bachelor who says he once fell in love with a beautiful young lady, but abandoned all idea of marrying her when he found that she and all her folks were opposed to the match.

Proved His Right to Papers.

"Did the peanut man get his naturalization papers?" "Yes; he proved to the judge right away that he was a good American at heart." "How did he prove it?" "In answer to a question he told the difference between a double play and a double header."

BLUE GRASS GIRLS WHO SHOT TO KILL

TWO YOUNG DAUGHTERS OF KENTUCKY MOONSHINER ROUT A REVENUE POSSE.

DEPUTY MARSHAL IS KILLED

Sisters, Aged Fifteen and Eighteen, Surprised in Their Mountain Home, Give Deadly Battle—A Tragedy of the Kentucky Wild.

Sergeant, Ky.—After a 50-mile ride into the Kentucky mountains, now and then finding a stream swollen by spring freshets, the correspondent found among the towering pines about Long Fork creek the Tackitt sisters, Bettie, aged eighteen, and Fannie, aged fifteen, who recently gave battle to a posse of revenue officers, killed one, wounded another and put the United States deputy marshal in command to flight.

A new-made mound in the village burying ground marks the place where lies Charlie Smith, deputy marshal, with a bullet still embedded in the muscles of his heart. The sisters are charged with killing him. One or both admit it but they declare they fought in defense of their aged mother whom Smith had shot and beaten with his revolver when a raid was made on their still in the mountains of Pike county.

Revenue nostrils had scented stinging mosh in the mountains back of Sergeant, in which corn was being converted into whisky in violation of at least seven pages of government statutes. Of course it had to be raided. The task was assigned to Deputy Marshal J. Matt Potter, one of the bravest officers in the south. For seven years he has been in the service of Uncle Sam, and more than twice has shot off moonshiners who fired on him. He picked Levi Smallwood and Charlie Smith for such moral support and physical participation as the occasions might require.

They crept up the gully and came to the mountainside clearing at midday. Before the Tackitts knew what was happening the son of the family was caught, handcuffed and placed on a rock, an easy captive. This was only the beginning of the fight. Uncle George Tackitt, head of the family, was away from home. This

Sisters Shoot to Kill.

the revenue officers did not know. They rushed the house to get him but met his wife instead. Defending herself with stove-wood she beat off arrest until she was shot through the scalp and arm and beaten into submission by Deputy Smith. Bettie and Fannie Tackitt were not inactive during this interval but were gathering guns and ammunition for a fight that lasted several hours in which three men were pitted against two girls. Smallwood was wounded in the arm and crippled. Then a shot took off the fingers of his trigger hand and he was out of the battle. The Kentucky maidens were then pitted against the deputies.

Finally Smith, underestimating the nerve and marksmanship of the girls attempted to take the house by storm. He moved forward with his rifle, covering both windows with his rifle. He raised the weapon to shoot but in an instant he was fatally wounded with a bullet in his heart. Potter retreated without his prisoners. Both girls were put under bond for appearance at court. They are much admired for their bravery.

Sees Earth Gulp a Horse.

Pottsville, Pa.—While plowing a field in a suburb of this place John Moss, who was driving two horses, suddenly saw one of them drop out of sight. A moment later he also was dragged by his hold on the reins into an old mine breach. Clutching a bush, he managed to hoist himself back from the brink and keep the other frightened horse from also going into the hole. The horse that fell into the shaft dropped 30 feet, and a small inclined slope had to be sunk to effect a rescue.

HOW MUCH Is a Regular Customer Worth to Your Store?

Suppose you could BUY 100 additional REGULAR CUSTOMERS during the next week or two—customers who, for years and years to come, would make a MAJORITY of their purchases of goods in your line at YOUR STORE? What would each of these 100 customers be worth to you?

It is, we think, quite likely that if such an investment were possible, you'd eagerly pay TWICE AS MUCH as it would cost you to secure these 100 REGULAR CUSTOMERS through an advertising campaign big enough and aggressive enough to really make people ACQUAINTED with your store.

Supt. C. E. Towery of the Tupelo school arrived yesterday afternoon and will attend the normal during the remainder of the summer term.

A bilious, half-sick feeling, loss of energy, and constipated bowels can be relieved with surprising promptness by using HERBINE. The first dose brings improvement, a few doses put the system in fine, vigorous condition. Price 50c. Sold by Ramsey Drug Co.

S. M. Torbett will leave tomorrow morning for Marlin, Tex., where he hopes to obtain relief from the rheumatism from which he has been suffering for some time past.

Try Steffen's orange, grape or cherry sherbet. Gwin & Mays Drug Co. 68-2dt

H. R. Snyder left yesterday afternoon for his home at Petersburg, Indiana. He stated, however, that he is going to bring his wife with him when he comes back in the winter and will spend a month or more here.

We use Lawrence Artesian water at our Soda Fountain. Pure and Fresh. Jones Drug Co. 61-dtf

More light than anywhere else in town. Light is better than darkness. Crescent Drug Store. 49dtf

Mrs. Tom Brashear and sons, Robbie and P. C., arrived from Sulphur Springs, Tex., yesterday afternoon and are visiting her sisters, Mesdames S. C. Chapman and L. L. Brittain.

Teething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is MCGEE'S BABY ELIXIR. It corrects sour stomach, cools and quiets the bowels and helps digestion. Price 25c, and 50c per bottle. Sold by Ramsey Drug Co.

W. L. Reed returned last night from a business trip to Oklahoma City. His family will arrive in a few days and will become full fledged residents of Ada again.

J. F. Fillingim finished moving the remaining part of his furniture stock today and will leave either this afternoon or tomorrow. He has been a resident of Ada only a few months, but leaves many friends made during this time.

A regular morning operation of the bowels puts you in fine shape for the day's work. If you miss it you feel uncomfortable and cannot put vim in to your movements. For all bowel irregularities HERBINE is the remedy. It purifies, strengthens and regulates. Price 50c. Sold by Ramsey Drug Co.

L. W. Magruder returned from Oklahoma City this morning. He brings the usual report of drouth and damaged crops. That section received none of the recent rains that fell here.

J. W. Hays and wife returned from Holdenville this morning, where they went yesterday with their niece, who was on her return journey to Mississippi.

See W. T. Tarkenton if you want a well drilled. Phone 309. 41-dtm

Supt. T. B. Limer of Allen arrived yesterday afternoon and will spend a week or two in the normal.

Try Steffen's orange, grape or cherry sherbet. Gwin & Mays Drug Co. 68-2dt

Miss Zayda Campbell returned from a visit to Davis and Roff yesterday afternoon.

M. Lingenfelter made a business trip to Holdenville yesterday afternoon.

Phone No. 4 for Printing.

I pay high prices for second hand stoves and furniture of all kinds. Call at St. Louis Furniture House, A. B. Golwasser, Prop. 30-1md

Rev. Mike Cassidy returned yesterday from Stratford, where he has just closed a successful revival meeting. He will go to Texhoma Friday and begin a meeting there.

M. Gubin returned yesterday from Pauls Valley where he went to look after his business interests. He states that it is extremely dry over there and that crops are much better around Ada than there.

Miss Laura Fisher, one of the teachers in the public school of Allen, arrived yesterday and will enroll in the normal for the remainder of the term.

Lon Chisler and Walter Clerk left yesterday afternoon for Denver, where they will spend some little time enjoying the cool breezes from the mountains. Lon will be gone about three months.

Mrs. Lura Skinner and children left today for Brownwood and other points in Texas, where they will spend a month or more visiting relatives. They were accompanied by her nephew, C. H. Mathis, of Corinth, Miss., who has been here several days.

Judge Barton like most other county judges, has been having more or less trouble in getting reports from careless guardians. However, the decided manner in which he has been going after them has produced results and he states that he has about succeeded in bringing them around.

Meeting of 25,000 Club.

A meeting of the 25,000 club has been called for Saturday night. At this meeting the future of the club will be settled once for all. Members in good standing urged to be present.

W. L. McAnally called around to see the News this afternoon and stated that in his neighborhood near Stratford there has been no rain for six weeks and that things are suffering badly. Near him, however, there was a heavy streak of rain Thursday about a mile in width.

THE GOSPEL TENT CORNER 16TH AND ASH

A good Monday night audience was at the tent corner 16th and Ash last evening, where the pastor of the First Christian Church is conducting a meeting.

The subject for last evening was "How Shall We Escape?" An earnest plea for the immediate accepting of Christ.

The subject for tonight will be "The Question of the Hour."

Rit Erwin, the obliging county treasurer, informs the News that he has completed the main part of the work of his office and has distributed the receipts of the June collection of taxes to the funds where they belong. He and Lee Daggs, his efficient deputy, have been keeping up with their work in good shape.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply BALLARD'S SNOW LINIMENT. Rub it in gently on the affected parts. It relieves itching instantly and a few applications removes the cause thus performing a permanent cure. Price 25c, 50c and \$1 per bottle. Sold by Ramsey Drug Co.

OAKMAN WOODMEN WILL UNVEIL MONUMENT

The W. O. W. camp of Oakman will unveil the monument to Dr. Davenport Sunday at 2 p. m. All other Woodmen have been invited to attend, and many have promised to do so. Those going from Ada can leave on the ten o'clock train and return at 1:10.

AN EXPENSIVE SQUIRREL HUNT

Squirrels \$17.16 2-3 each. A trifle high, perhaps, but that is the rate paid by Dr. W. D. Faust and E. H. McKendree for three killed on a hunt a few days ago. In other words the two gentlemen went hunting on the river and Dr. Ligon, the game warden, found out about it and lodged complaint against them. Dr. Faust had a hunting license issued in December and said he thought it was good for a year, but as a matter of fact all hunting licenses expire May 1.

The penalty for hunting without a license is not less than \$50 and costs. These being the first cases to come up, it was agreed that only one fine would be assessed and the two hunters divide it between them.

Dr. Ligon says that the game laws will be no joke while he is on the job, and that although he will regret having to take such action, it will be his duty to file complaints against every person he finds hunting out of season or without license, and that he expects to perform that duty without fear or favor.

Liberal purses at the Murray County Fair grounds, Sulphur, Oklahoma, on July 6th and 7th in the following races: One-half mile and one-fourth mile, all ages; three-eighths mile, three years old; 300 yards, 14 hand ponies, one-fourth mile saddle horses. Novelty races, matched races, etc. W. A. COOK, Secretary.

Married.

Yesterday evening Mr. B. N. Hunsucker and Miss Ada Heath were united in marriage at the Baptist parsonage, Rev. C. Stubblefield officiating.

"WALL STREET FARMERS" FIGHTING RECIPROCITY

Washington, June 27.—That the "farmers" principally interested in killing reciprocity are Wall street "farmers," whose crops consist chiefly of lumber and paper trust dividends, was revealed in testimony taken before the senate finance committee.

It was shown that Allen and Graham, alleged attorneys for the National Grange, are really professional lobbyists for the big tariff trusts. Their argument when seeking business is that they can pull the necessary wires in Washington to defeat or bring about the passage of any legislation they may be assigned upon.

Mr. Allen was made to admit under cross-examination that the anti-reciprocity literature with which the agricultural districts have recently been flooded came direct from the lobbyist headquarters within a stone's

throw of Wall street. Mr. Allen also admitted that the American Lumber Manufacturers' association, the Pulp and Paper association and the American Wool Manufacturers' association (lumber trust, paper trust and wool trust, respectively) are among those who pledged themselves to finance this holy crusade among the farmers.

Allen and Graham have among their clients some of the best "farmers" in Wall street. The firm was shown to have represented as lobbyists the Whiskey Security Company, (trust) and the Standard Oil company, which interests lobby together in Washington, and the latter of which organizations is headed by John D. Rockefeller, who is a big oil "farmer."

Commission Apptly Named.

It is known now why Senator Aldrich calls his lame duck commission a "monetary" commission. It is because it spends so much money.

The Monetary commission, according to a report filed by the treasury, has expended \$207,130.48 of the people's money on European travel, meetings at famous summer resorts, on manuscripts, book translations, monographs and members' salaries, and it hasnt as yet begun to think of quit spending. Several lame duck senators recently appointed who were not in on the European trips, and they will no doubt insist upon getting their slice, as Ben Tillman used to say. Aside from the expenditures noted, the report contains various insinuating entries that read: "account clerical force and persons in attendance on commission."

The European trip cost \$19,250.18. It was a nice summer trip and any body who has traveled with a Cook party will tell you that a select little party of a half dozen can make a mighty fine circuit of the continent on \$19,250.80. The account is not itemized beyond this statement. Indeed, Senator Aldrich has fixed it so the commission can spend any amount of money it desires without questioning anyone, and without giving a detailed report to anyone. Senator Aldrich is not hampered by any formalities whatever. He has only to reach into the treasury, get money and sign a receipt. It is appalling to contemplate what would happen to the treasury if all commissions and departments of the government should be permitted to employ such loose business methods as a daily practice.

As a fresh-air fund to promote the recuperation of lame ducks, the commission is manifestly a big success. To this end witness the meeting of the commission at Narragansett Pier in July, 1909. It takes monetary backing to go to Narragansett in July. The bill was \$2,493.74.

And Senator Cummins of Iowa is heartless enough to say that the commission is absolutely useless, and ought to be abolished.

GOVERNMENT CANCELS CUNNINGHAM CLAIMS

Washington, June 27.—By a decision of the commissioner of the general land department of the interior today the Cunningham coal claim, which was one of the principal bones of contention between the Ballinger-Pinchot factions, are cancelled.

The claimants by the decision, lose control of thirty-three entries estimated to be worth many millions of dollars, in the Kayak district of Alaska, Controller Bay region.

The government charged in the cancellation proceedings that the entries were made pursuant to an unlawful understanding entered into by all the claimants prior to locating the claims.

Titles secured would be turned over to an association or corporation and no mine was to be operated on any of the claims in order to maintain the high price of coal in Alaska.

These charges were brought to the attention of the government and this investigation was started in Seattle in 1909. Clarence Cunningham, a mining prospector of Seattle, first located the claims and formed an association of nine other persons who

defrayed the expenses of making the locations and entries. After the claims had been entered Cunningham and his associates disposed of them to the Guggenheim interests for an immense sum.

Louis H. Glavis, in 1909, chief field agent of the land office, afterwards discharged from his position for his activity in the investigation, collected most of the evidence which resulted in the cancellation of the claims.

The Cunningham claims include 33 entries, each a fraction less than half a mile square, aggregating 520 acres. The center of the group is about 24 miles northeast of Katalla, a small port on Batalla Bay, near Controller Bay and the Pacific ocean.

They are the most valuable group of coal lands in Alaska. The Guggenheims were to have built a railroad from the mines when opened to the tidewater, which would have enabled them to have practically controlled the coal business in Alaska and on the Northern Pacific.

Nearby are several coal claims, charged to be controlled by Guggenheim and J. P. Morgan interests, besides a group owned by English capitalists. It is believed here that the Cunningham decision will open the way for more cancellations in the same field and that the Guggenheims-Morgan coal land investments are in jeopardy.

Computations made in the general land offices show that the Guggenheim claims alone are valued at a sum that staggers the imagination. Millions on millions worth of coal are beneath the surface of the claims and the owners would be able to dominate for many years the coal trade of the Pacific.

Estimates vary as to the value of the Cunningham claims. Statements today at the general land office were to the effect that the claims undeveloped are worth all the way from \$128,000,000 to \$250,000,000 or even more. Several witnesses at the various hearings testified that the claims are worth more than \$300,000,000.

MEXICO BECOMING MORE TRANQUIL

City of Mexico, July 27.—No favoritism whatever will be shown by the provisional government in the coming presidential elections, according to President De La Barra. This was the substance of the reply made by him this morning to a man who called upon him in regard to the candidacy of Gen. Geronimo Trevino. Gen. Trevino has never formally accepted his candidacy, but a group of his friends are working for his favor and it was to ascertain the attitude of the new government that one of his partisans questioned the chief executive.

Fairness to Candidates.

"I told him," said the president tonight, "that the government would give all guarantees of a free and open election to all candidates."

He was assured by De La Barra that no restrictions other than those imposed by the law would be placed upon candidates or partisans during the campaign, from which it may be assumed that if Madero is given opposition in his race for the presidency adherents of both him and his opponent, or opponents, will be free to hold political meetings as such is done in the United States.

To Aid Laboring Class.

The question which now is taking the attention of both men is that of doing work for the laboring men of the republic and improving the conditions of the workingman. The president is considering the creation of a national labor commission, and stated tonight that he expected to ask congress to authorize it. He will call upon owners of leading factories to consult with him regarding the measure and to talk over the best means of giving work to more men and of increasing the output of their plants. The commission the president wishes to create will have to do with such problems as securing better wages for the men and better housing facilities, and it is not improbable the question of peonage will be considered.

S.S.S. FOR SUMMER SKIN DISEASES

During the summer most persons are annoyed with pimples, boils, rashes or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. All skin affections come from humors and acids in the circulation. The blood, as it circulates through the system, deposits these humors and acids in the sensitive membranous flesh which lies just beneath the outer skin. This acid matter causes inflammation and a discharge which breaks through the delicate cuticle, and skin diseases are the result. To cure any skin trouble the blood must be freed from all acids and humors, and for this purpose nothing equals S.S.S. This great blood purifier completely removes every particle of the impurity, enriches the blood, and in this way permanently cures skin diseases. S.S.S. cures because it purifies the blood and thus does away with the cause. Book on skin diseases and any medical advice you may desire sent free. S.S.S. is for sale at drug stores.
